## Portfolio Management Team

Chief Investment Officer	John Hock
Fund Manager(s)	John Hock

## Investment Objective

The primary investment objective of the International Equity Value Currency Hedged Corporate Class is to provide long-term capital appreciation primarily through investment in a diversified portfolio of equity and equity-related securities of international issuers which are believed to be undervalued relative to their perceived growth potential while hedging against changes to the exchange rates between the Canadian and major foreign currencies. Equity-related securities include convertible preferred shares, convertible debt obligations and warrants. This fund also may invest in other mutual funds.
